Receiving a Secure Message

- The Bank of Northern Michigan's Secure Messaging system allows us to send secure, encrypted emails to you so that we can keep your private information safe. When you receive a secure message from us, you will see the image below in your mailbox.

- To view the message, open the attachment, SecureMessageAtt.html, to launch a browser. When your browser launches you will see the image below. Click "Read Message."

- After clicking "Read Message," you may be prompted by your web browser to submit information to an external page. If this message is received, simply click "OK."

- If you are opening a secure message for the first time, you will be prompted to create an account. All that is needed is a name, a password and the choice of a recovery question with an answer. This step is required one time only. The password policy is as follows:
 - Use at least one capital character.
 - Passwords must be at least eight characters long and must contain at least one capital character and one number. They may not contain any white space (e.g. spaces, tabs).

- If you have enrolled previously, you will only be prompted for your password.
- After you have enrolled or signed in to Secure Messaging, you will be able to view the contents of the message you received from us.

Replying to a Secure Message

- After viewing the contents of the email, you may select “Reply”, “Reply to all” or “Forward” as response options.

- If you choose “Reply”, you cannot add recipients. You can add recipients to if you select “Reply All” or “Forward”. Once a reply option has been chosen and your reply message is composed, click on “Send” to respond. Messages within the Secure Messaging system may only be sent to employees of the bank.
